Re: Status of Small Mining Permit, Pumice/Perlite /Mountain View, S/001/033 (ML 40197 and 40198), Beaver County, Utah

Dear Mr. Bradshaw:

On November 14, 1996, the School and Institutional Trust Lands Administration ("SITLA") sent you a letter stating that your leases # ML 40197 and ML 40198 were canceled for the Pumice/Perlite/Mountain View sites for non-payment of annual rental and minimum royalties. SITLA required that you commence immediate reclamation of all mining disturbances upon the lands. You were given 180 days to complete the reclamation work.

Your 1996 annual report stated you were going to continue to do assessment work on the site. This letter is to notify you that **no mining related work other than reclamation** work can be done on the site unless you have the proper leases in place. Continued mining related work could place you in direct violation of the Utah Mined Land Reclamation Act. Please advise us as to your intent to respond to SITLA's request for immediate reclamation of this mining site.

Thank you for your immediate response to this letter.

Sincerely,

Tom Munson  
Senior Reclamation Specialist
